

GLOBAL ENTITY SOLUTIONS

## IMPLODING SPAC (iSPAC)

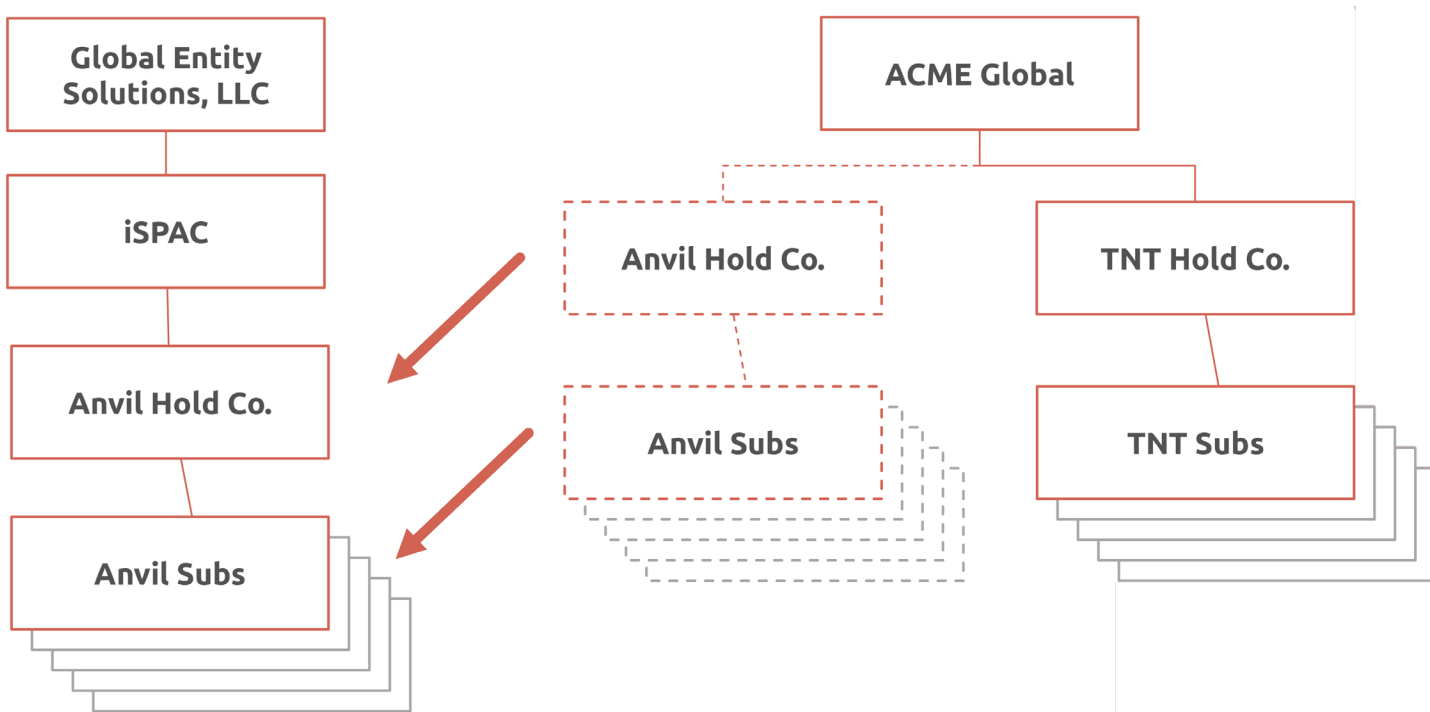

The iSPAC is **Global Entity Solutions'** ("GES") full service offering that allows clients to save money while quickly and efficiently disposing of unneeded legal entities. It's simple, GES establishes a Special Purpose Acquisition Company ("SPAC") to acquire the stock of your unnecessary legal entities and then proceeds to shut down those entities. We call it the Imploding SPAC because the assets of the SPAC don't grow, they implode, leaving nothing left once we are finished! Our clients are not responsible for any of the costs to maintain and ultimately dispose of the legal entities after they are transferred. After the initial transaction a GES customer gets a clean definitive exit and is able to focus on running their business instead of pushing paper. See how the iSPAC works below!

### SAMPLE iSPAC TRANSACTION

**ACME Global decides to discontinue their Anvil business to focus solely on their TNT line**

# Global Entity Solutions, LLC (“GES”) forms a Special Purpose Acquisition Company (“SPAC”) and acquires the stock of Anvil Hold CO. and its Subs

## Acme Global has a definitive exit and can now focus on the explosive growth in their TNT business
